VendorPanel Training Academy
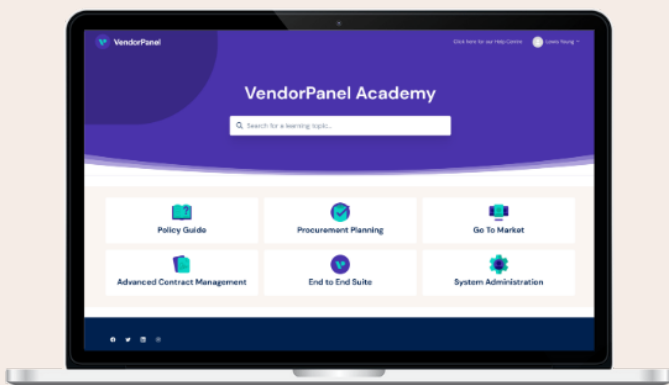

VendorPanel Training Academy

VendorPanel Training Academy is an online library of on-demand training videos for Administrators and end users. Through the Academy, your users get access to comprehensive training videos on each VendorPanel module.

As VendorPanel's official learning resource, the Training Academy educates users on how to unlock the full potential of each module to enable better decision making for their organisation.
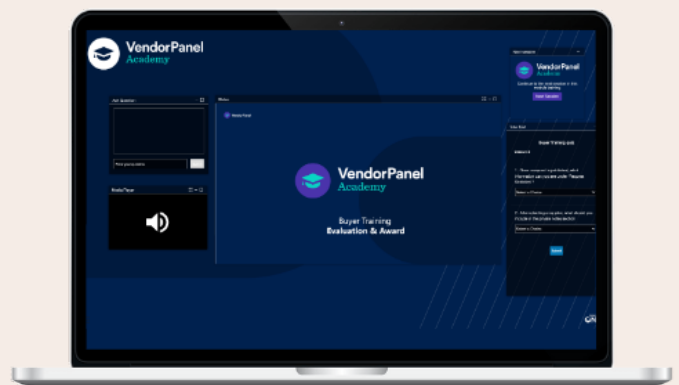

What it enables:

- Efficient and measurable team upskilling

- Increased usability for teams to stay compliant and follow process

- Improved efficiency and time saving for staff

- Become a VendorPanel expert for your organisation

The Training Academy can be accessed on-demand and anytime for a self-paced learning experience. Each session is short, simple and targeted to deliver the key information. This means that your staff can efficiently upskill themselves, learning what they need when they need it.

The home page features the different modules you have access to and the relevant training videos. There are videos for both administrator and end users available.

The Training Academy is hosted on an interactive platform (ON24), to better enrich the experience. Once you've registered, you'll be able to watch the sessions, complete the quizzes, and become a VendorPanel expert!
